DaWetRest

Danube Wetlands and flood plains Restoration through systemic, community engaged and sustainable innovative actions

## POZIV

Poljoprivredna stručna služba “Sombor” u okviru projekta DaWetRest (Danube Wetlands and flood plains Restoration through systemic, community engaged and sustainable innovative actions: [www.dawetrest.eu](http://www.dawetrest.eu)) organizuje predavanja i radionicu koja će se održati **18. oktobra 2024. godine u Edukativnom centru za poljoprivrednike (Staparski put 37, 25000 Sombor, Srbija) sa početkom u 10:00 sati.**

DaWetRest je projekat koji uključuje 46 institucija iz 12 zemalja Evrope koje zajednički rade na demonstraciji aktivnosti obnove dunavskih močvara na području srednjeg Dunava (Republika Hrvatska, Mađarska, Srbija, Bosna i Hercegovina), donjeg Dunava (Bugarska) i delte Dunava (Rumunija).

Cilj radionice je uključiti sve relevantne učesnike, a naročito one iz sektora upravljanja, te im predstaviti preporuke za unapređenje stanja vodenih i poplavnih ekosistema zasnovanih na DaWetRest-u.

## PROGRAM

- 09:30-10:00 Registracija učesnika
- 10:00-10:15 Pozdravni govori organizatora i institucija
- 10:15-10:45 Predstavljanje učesnika

**DaWetRest**

**Danube Wetlands and flood plains Restoration** through systemic, community engaged and sustainable innovative actions

## **NETWORKING AND POLICY RECOMMENDATIONS FOR WETLAND IMPROVEMENT IN THE MIDDLE DANUBE**

PSSS "Sombor" as part of the DaWetRest project (Danube Wetlands and flood plains Restoration through systemic, community engaged and sustainable innovative actions: [www.dawetrest.eu](http://www.dawetrest.eu)) organizes lectures and a workshop on October 18, 2024 in the Educational Center for farmers (Stuparski put 37, 25000 Sombor, Serbia) starting at 10:00 a.m.

DaWetRest is a project that includes 46 institutions from 12 European countries working together to demonstrate the restoration of Danube wetlands in the area of the Middle Danube (Republic of Croatia, Hungary, Serbia, Bosnia and Herzegovina), the Lower Danube (Bulgaria) and the Danube Delta (Romania).

The goal of the workshop is to include relevant stakeholders, especially those from the management sector, and to present recommendations for improving the condition of water and flood ecosystems based on DaWetRest.
